## SUMMARY

As a dedicated and motivated individual, I am seeking a position as a Data Analyst where I can utilize my skills in data cleaning, data visualization, and proficiency in tools such as Tableau, NumPy, and Pandas to contribute effectively to the organization's success. With hands-on experience through various projects and certification, I am eager to apply my knowledge and grow in a dynamic professional environment.

### Skills:

Python ,NumPy ,Pandas ,Statistics ,Data-Visualisation ,Data-Cleaning ,EDA ,SQL, Tableau.

### Framework:

Visual studio, Eclipse,Jupyter Note-Book,Kaggle,Google Collab

## PROJECTS

- Project 1**      **Sales Analysis**  
Analyze the sales data of the company for the fourth quarter in Australia, examining it on a state-by-state basis. Provide insights to assist the company in making data-driven decisions for the upcoming year.
- Project 2**      **Mercedes-Benz Greener Manufacturing**  
Removed the the columns whose variance was equal to zero,checked the null values for test and train dataset also applied label encoder .
- Project 3**      **Retail Analysis with walmart Data**  
Cleaned the data,took out the outliers,examined the weekly sales monthwise and yearwise,Picked out the independent variable and dependent variable,created the predictive model and compared all the algorithms and checked out which algorithm is the giving the highest accuracy .

## EDUCATION

- 9/2021 - 7/2023      **Master of Computer Application**      SRMS CET, BAREILLY  
Completed my Master's from SRMS CET with Honours
- 8/2018 - 9/2021      **Bachelor Of Science**      KCMT, BAREILLY  
Completed my Bachelor's with First division
- 4/2017 - 7/2018      **Higher Secondary**      KV NO2 JLA CANTT, BAREILLY  
Completed my Higher Secondary with First division
- 4/2015 - 7/2016      **High School**      KV NO2 JLA CANTT, BAREILLY  
Completed my High School with First Division

## CERTIFICATES

- 9/2023 - Never      **Data Science With Python**      Simplilearn  
On the behalf of completing the project on "Sales Analysis" I got the certificate along with the successful training programm of Data Science With Python
- 11/2023 - Never      **Machine Learning**      Simplilearn  
On the behalf of completing the project on "Mercedes-Benz Greener Manufacturing" I got the certificate along with the successful training programm of Machine Learning
- 11/2023 - Never      **Maths Refresher**      Simplilearn  
Completed the training in the basic elementary mathematics used in the data Science which covered the topics of like Vector,Scaler,Differentiation,Integration,Matrix and etc.

## WORK EXPERIENCE

- 4/2023 - Present      **Data Science Intern**      Boston Consulting Group(BCG)  
Working on a the Dataset where we have to calculate the churn rate of the clients from the electricity service providers,where we have to find the main cause of the churn rate
