WORK EXPERIENCE

Associate Business Intelligence Celebal Technologies

09/2021 - Present

Noida, Uttar Pradesh

Celebal Technologies is a premier software services company in the field of Data Science, Big Data and Enterprise Cloud.

Achievements/Tasks

- Presented and communicated the findings in an understandable and actionable way tailored to the audience and customer's needs.
- Established long-term and value-added relationships with assigned business partners to educate and develop the analytic capability of business customers and the organization.

PROJECTS

Asian Paints - Power BI Developer

- Design and develop interactive dashboards, analytics reports and data visualization using advanced DAX for the sales and marketing team
- Automate the data migration process to transfer over 2TB of data daily and reduced the time consumption by 24%
- Manage data privacy and security of company data in Power BI
- Configure on-premise data gateway between SQL Server and Power BI service
- Generated and delivered quality reports to customers by conducting quality assurance checks and recorded a 65% increase in customer satisfaction

Pure Storage - Power BI Developer

- Migrated reports from ChartIO to Power BI
- Assisted in the development of automated reporting solutions, leading to a 30% reduction in manual reporting efforts
- Conducted data analysis to identify areas for improvement in existing BI solutions, proposing and implementing enhancements for increased efficiency
- Develop 50+ reports by utilizing knowledge of SQL queries, SQL Server Reporting Services (SSRS), and SQL Server Integration Services (SSIS)
- Implemented 3 fully functional data schemes and 10+ data flow optimization processes for reporting performance and enhancements

Bajaj Allianz - Power BI Developer

- Spearheaded the development of an Advanced Analytics Dashboard for Bajaj Allianz, consolidating and visualizing complex insurance data using Power BI.
- Integrated data from various sources within Bajaj Allianz, including policy databases and claims systems, to provide a comprehensive view of insurance performance metrics.
- Implemented complex DAX calculations to derive meaningful insights into insurance claims trends, policy renewals, and customer segmentation.
- Conducted training sessions for Bajaj Allianz end-users, empowering them to navigate the Power BI dashboards independently and make data-driven decisions.
